

Cistus x skanbergii

Coral Rockrose

PLANT DESCRIPTION

Plant Type: Evergreen Shrub

Height / Width: 3 ft. H x 8 ft. W

Plant Form: Low mound

Flower / Fruit: Great profusion of 1 in. pale pink blooms in spring and early summer

Leaf Color, Size: Slender sage-green foliage

Native To: Naturally occurring hybrid

GROWING REQUIREMENTS

Sunset Zones: 6-9, 14-24

Soil: Well-drained, accepts poor soil

Water: Little water, drought tolerant

Sun: Full sun, accepts desert heat

Care and Pruning: Carefree, fast-growing; resents hard pruning, periodically cut out a few old stems. Tip-pinch young plants to thicken growth

GARDEN USE

Good for erosion-control on dry banks, big rock gardens

BOTANICAL GARDEN

Mediterranean Garden
