

# **Anemone x hybrida 'September Charm' Japanese Anemone**

## **PLANT DESCRIPTION**

**Plant Type:** Herbaceous Perennial

**Height / Width:** 2-3 ft. H x 4-6 ft. W

**Plant Form:** Graceful clump

**Flower / Fruit:** Very free-flowering, single silver pink blooms in late summer, fall

**Leaf:** Dark green with 3-5 lobes

**Native To:** Garden Hybrid

## **GROWING REQUIREMENTS**

**Sunset Zones:** 2b-24

**Soil:** Fertile, humusy soil

**Water:** Reg, avoid overly wet conditions

**Sun:** Partial shade

**Care and Pruning:** Slow to establish then fast spread. Cut spent bloom stalks to basal foliage. Cut foliage to ground in winter. Mulch in cold winter areas. May need staking. Divide in early spring or after flowering.

**GARDEN USE** Beds and borders; naturalizing, cottage, and woodland gardens
